Innovative technology solutions for **sustainability**

## Abengoa wins a new engineering and construction project in Denmark

- Nyt Herlev Hospital has selected Abengoa to carry out the electromechanical installations of the new hospital complex located in the town of Herlev, Denmark.
- The project is valued at 38 M €.

September 10, 2015 – Abengoa (MCE: ABG.B/P SM /NASDAQ: ABGB), the company that applies innovative technology solutions for sustainability in the energy and environment sectors, has been selected by Nyt Hospital from Herlev to carry out electrical, mechanical and ventilation installations at the new hospital. The project will last 24 months.

It is a hospital complex that is included in Denmark's hospital investment program, with 825 beds, an area of 56,000 m<sup>2</sup> and a coverage of 435,000 patients in 2018.

Abengoa is present in Denmark, where it is developing the mechanical installations of the new building Niels Bohr at the University of Copenhagen for "The Danish Building & Property Agency" (Bygningsstyrelsens).

### About Abengoa

Abengoa (MCE: ABG.B/P SM /NASDAQ: ABGB) applies innovative technology solutions for sustainability in the energy and environment sectors, generating electricity from renewable resources, converting biomass into biofuels and producing drinking water from sea water.
