B) EVOLUTION OF THE BUSINESSES

(Although summarized, due to the synthetic nature of this quarterly information, the comments to be included in this section must enable investors to reach an acceptable understanding of the activity carried out by the company or its group, and of the results obtained over the period covered by this quarterly report, and of its financial and equity situation and other essential information on how business is going for the company or its group. Finally, a clear distinction must be made between the comments made on the consolidated financial highlights and, if it were the case, on those in relation to the individual financial highlights).

- A document with the "Evolution of Business" is included.

C) PRESENTATION BASES AND VALUATION ASSUMPTIONS

(In the drafting of the financial-accounting type data and information included in this periodic public report, the recognition and valuation principles and criteria established in the prevailing legislation on the drafting of information of a financial-accounting nature for financial statements corresponding to the annual period to which the periodic public information herein refers, shall be applied. If exceptionally, the generally accepted accounting principles and criteria, required under the corresponding prevailing legislation, had not been applied to the data and information included herein, this fact must be indicated and sufficiently justified, and the influence their non-application might have on the equity, financial status and financial statements of the company or its consolidated group must be explained. In addition, and with a similar scope to the previous point, the modifications that, if it were the case and in relation to the latest audited annual accounts, may have occurred in the accounting criteria utilized in the drafting of the reports attached hereto, must be mentioned and commented on. In the event of the same accounting principles, criteria and policies as in the last financial statement having been utilized, and if these correspond to those established in the prevailing accounting legislation applicable to the company, this must be expressly stated. Whenever, in accordance with the applicable legislation, adjustments and/or reclassifications have occurred in the previous period, due to changes in accounting policies, the correcting of errors or changes in the classification of entries, the quantitative and qualitative information required to understand the adjustments and/or reclassifications shall be included in this section).

As regards the information corresponding to the particular results of Abengoa, S.A., it will be presented in accordance with the Spanish national accounting principles (General Accounting Plan).

The information corresponding to the consolidated results of the Abengoa Group has been prepared to comply with the International Financial Reporting Standards (IFRS), understanding as such those adopted by the European Commission pursuant to the procedure established by the (EC) regulation no. 1,606/2002 of the European Parliament and Council dated July 19, 2002. In Spain, Act 62, dated December 30, 2003, established that the consolidated annual accounts must be prepared in accordance with those Standards in the case of companies which, as of the closing date of their balance sheet, have stock officially listed in a regulated market.

Therefore, pursuant to the said legislation, and to comply with the stipulations of Circular 1, dated April 1, 2005, of the Spanish National Securities Exchange Commission (CNMV), both the financial information corresponding to the current and to the preceding year –in other words, that corresponding to the third quarter of 2004– have been prepared following the said International Financial Reporting Standards to provide comparable data of both time periods. Thus, the figures of the third quarter of 2004 will differ from those published originally.

Likewise, in application of the aforementioned Circular 1/2005, it becomes necessary to inform that, in the information corresponding to the first quarter of 2005, the main impacts on assets at 01 January 2005 were detailed as a result of the application of currently applicable International Financial Reporting Standards (IFRS's), and also explain the main differences between the accounting standards applied in order to obtain the opening balance sheet at 01 January 2005, under IFRS's, and that of the close of the previous financial year, prepared under the General Accounting Plan. In this regard, it should be noted that the data presented for the third quarters of each financial year were prepared using the standards, principles and interpretations known to date with regard to the IFRS's, as explained in the information for June, and correspond to the best estimation made by the Group; they have as yet not been audited and therefore are subject to possible future modifications.
