

Business Units

In its search for synergies and cross-selling to achieve the creation of value and growth, Abengoa is organized into five business units, Latin America as a stable market as well as a corporate area.

Solar

With the sun... we produce thermoelectric and photovoltaic electric energy

Bioenergy

With biomass... we produce ecologic fuels and animal feed

Sustainable Development

Environmental Services

With wastes... we produce new materials by recycling, and we also treat and desalt water to achieve a sustainable globe

Information Technologies

With Information Technology... we transform data into knowledge, providing effective operational and business real-time decision making for traffic, transport, energy and environment

Information and Knowledge Society

Industrial Engineering and Construction

With engineering... we construct and operate conventional and renewable energy power plants, power transmission systems and industrial infrastructures

Creation of Infrastructures
